# Health PAS Online Portal ICD-10 Implementation Notification

We will implement some changes to the Health PAS Online Portal on Sunday, September 27, 2015 in order to be ready to accept ICD-10 codes.

The changes to the portal will be as follows:

- ICD-9 and ICD-10 radio buttons will be provided in the diagnosis code session on all three claim types. You must select an ICD-9 or ICD-10 radio button on all claims you submit.

- A "CMS claims guidelines for implementing ICD-10" link will be available to the right of the ICD radio buttons for additional ICD-10 information.

Reminder: **Do not attempt to enter an ICD-10 code prior to October 1, 2015**.

ICD-10 codes are required on most claims with dates of service on or after October 1, 2015. Use the appropriate ICD-9-CM code for most claims with dates of service prior to October 1, 2015. These updates only affect the Direct Data Entry (DDE). Electronic Data Interchange (EDI) and paper claims ICD-10 functionality will be implemented on October 1, 2015, as previously communicated.

Please note that some claims spanning the cutover date will need to be split billed. For detail about split billing, see the August 2015 ICD-10 PowerPoint Presentation.

For more information on the new ICD-10 functionality within the MyHealth PAS online portal, go to the Provider Tab >Provider Manuals>MyHealth PAS User Guides and select the appropriate claims submission guide.

Call Provider Services with questions at: 1-866-690-5585, option 7, or email the ICD-10 inbox.
